

Diskmath Week 5

Emil Straschil

A dark blue diagonal gradient bar that starts from the bottom left and extends towards the top right, covering the lower half of the slide.

Hello

I am Emil.

I have a **website**:

emils.site (yes thats the URL)

repo: <https://github.com/emil3tr/emil3tr.github.io>

All materials will be uploaded there.

Any Feedback / Questions /
Wishes / ... ?

→ estraschil@student.ethz.ch

→ “Emil” (floxi4) on dinfk-discord

→ Diskmath-questions: ask here
so others can benefit (:

Where are we right now?

Basics

Abstraction
Formulas
Statements
Prop. Logic
Pred. Logic
Proof Patterns

Sets and
Relations

Sets
Set Operations
Relations
Equivalence
Partial Order
Functions
Countability

Number Theory

Division
Primes
Modular Arith.
Diffie-Hellman

Algebra

Monoids
Groups
Euler Totient
RSA
Rings
Polynomials
Finite Fields
Err. Corr. Codes

Logic

Proof Systems
Logic
Calculi
Res. Calculus
Prop. Logic
Pred. Logic

Today

First Half:

1. Info
2. Last Serie
3. Relation Properties
4. Relation Kahoot

Second Half:

1. How to prove Relation Properties
2. Exercises

Questions?

Some Infos

Thank you for the feedback!!!

I'll try to be a little slower.

Tell me if it's too fast!

Form still open

The TA talks at a good speed and I can follow the explanations

 [Copy chart](#)

27 responses

More / longer theory recaps

More exercises

Form on Website → vote!

Grading

I added some points afterwards on moodle, don't worry if they don't match with the number on your submission.

Email List

If you are not enrolled here:

Go to emils.site -> week5 -> Email form.

Put your Kürzel there, so I can add you to my mailing list.

kürzel@ethz.ch

GENTLEMEN, IT IS WITH GREAT PLEASURE TO INFORM YOU THAT

**WE HAVE KAHOOT
PREMIUM NOW**
